

# Case Study:

OL   
PRO

Springpack has helped us reduce costs, keep to our eco-conscious actions through their eco-friendly packaging and have made our packaging process so much easier.

springpack 

# The Challenge

Before working with Springpack, we found that we were paying a lot of money for boxes and bags that were either too big or too small. We're also really eco-conscious and try to be sustainable in as many ways as we possibly can

Springpack has helped us overcome our packaging challenges with bespoke designs. We bottle and box all of our chemicals in-house which means we need boxes that will cater to the bottle sizes we need and Springpack have helped us with this massively. We also sell a lot of large items and from other companies, we could never find bags that were big enough for our packages, until we started working with Springpack.

# The Solution

**The**

**Result**

With the bespoke designs, packaging has never been easier for us. We can now pack our chemicals in bulk and most importantly, they have super fast delivery which is a great benefit to us as a company that has a lot of orders to fulfil.

Springpack has helped us reduce costs, keep to our eco-conscious actions through their eco-friendly packaging and have made our packaging process so much easier.

It's incredibly important to us that we have the right packaging and we've found that with Springpack. The bespoke products have changed the way in which we package our products and gave benefitted us massively.

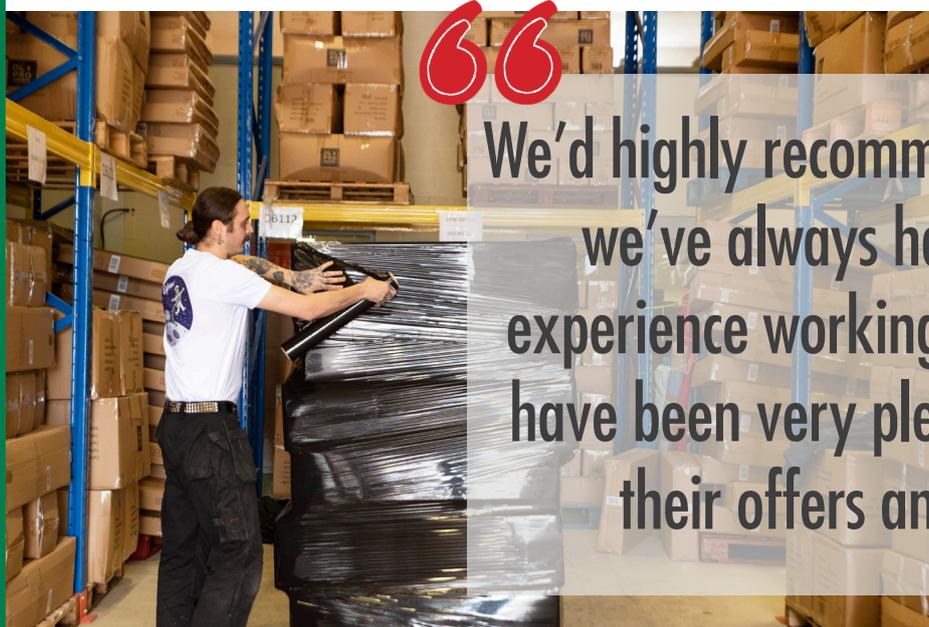

Packaging has never been easier for us  
We can now pack our chemicals in bulk

We'd highly recommend Springpack, we've always had a positive experience working with them and have been very pleased with all of their offers and services.

We could never find bags that were big enough for our packages, so Springpack have really helped us with offering bags large enough for our products.
